Special Mass Sung On Silver Anniversary

LEGAL—Last Saturday morning, Mr. and Mrs. Leon Davio celebrated their 50th anniversary of marriage. Most of their children and grandchildren were present at the special mass sung by the parish priest in the St. Emile Church. The borders of the convent sang appropriate canticles for the occasion. The pastor expressed his best wishes of good health and happiness to the jubilarians. The members of the family then gathered at the home of a daughter of Mr. and Mrs. Davio for the celebration.

On Monday morning, Rev. A. Langevin blessed the marriage of Bonnie Staszyshyn and Francois Ouellet in the St. Emile Church. A colorful procession of best men and bridesmaids accompanied the couple to the altar. A great number, including parents and friends were also present. The newly married couple and their guests then moved to the home of Francois Ouellet where lunch was served, then to the La-marche hall for the official dinner. Best wishes for happiness are extended to the newlyweds.

Jean Marie and Sylviane Potvin left Saturday evening, May 31, to reside at least for a time, down east. They will find work in the district of Arvida, where one of their brothers has lived for the past few years.

Mrs. Fariette and her daughter, from Chauvin, visited at the rectory last Sunday morning.

Two baseball league games were played last week. Legal defeated Alcomdale in the first game by a score of 8 to 6, and also defeated Vimy in a second game by a score of 5 to 1.

Several parishioners of Legal were present in St. Albert last Tuesday for the celebration of the 50th anniversary of Bishop Grandin.

The annual church picnic will be held on the 29th of June. Details will be given in the near future.

Vimy Wins 2, Loses 1 Game

VDIMY—In the newly-formed Vermilion River League, the Vimy baseball team has already played three games. Two were won and one lost. The first game was played in Vimy with Busby. The score was 7-5. Then the Vimy team travelled to Picardville and the score came out to a 4-4 tie. Last Sunday Legal baseball team were guests at Vimy. The visitors were victorious by a 5-1 score.

Alcomdale News Briefs

A good crowd was in attendance at a dance held in the community hall on Friday, May 30. Next dance will be held June 27.

Commencing June 9, Monday to Friday, all business places in Alcomdale will close at 6 p.m.; on Wednesdays, 1 p.m., except Saturdays, when businesses will be open till 9 p.m.

Congratulations go to Mr. and Mrs. Cameron Fulton on the birth of their second son, Byron Cameron.

School Div. Approves Plans; Awards Tenders For Legal, St. Albert Schools

The regular monthly meeting of the Divisional Board of the Sturgeon School Division was held on May 14 and adjourned to May 23. All members were present. Also Mr. Scott, superintendent, and Mr. Meaden, secretary-treasurer.

Letter from Mr. Jewers, manager of the school buildings branch informed that final plans and specifications for the erection of a one-roomed addition to the Saskatchewan school have been approved by the Department of Education. Tenders were advertised with closing date May 22. Consequently the board adjourned until May 23 so as to be able to deal promptly with tenders received.

The contract was awarded to Napoleon Belley of Legal with the exception of the heating. The contract for heating was awarded to Keeley's Sheet Metal of Edmonton. The regular monthly accounts were ordered paid on the motion of Mr. Cunningham.

Mrs. Sophia Gallagher tendered her resignation as teacher of the junior room at Villeneuve school. This was accepted by the board. Annual refresher course for secretary-treasurers will be held at the Chairman, Mr. Paul Chauvet, Trustee Hugh Allen and the Secretary-Treasurer were authorized to attend the eighth annual refresher course to be held at the Banff School of Fine Arts on June 3-4-5.

The contract for the addition to the St. Albert school was awarded to Elmer B. Johnson Co. Ltd., and this has been approved by the Department of Education.

The revised sketch plan for the Legal school was approved by the board subject to recommendations of the fire commissioner and the buildings branch. If the Department of Education is being incorporated in the final plans. Final plans and specifications are expected to be ready in approximately three weeks time.

Kinsmen Compete With Ponoka Tribe

BARRHEAD—On Sunday last the Barrhead Kinsmen Club was invaded by members of the Ponoka club, some 26 strong.

It appears that the object of the visit was to take the Dinosaur Trophy away from the local club. This ancient relic is competed for between the various Kinsmen clubs and arrived in Barrhead from the Edmonton club after a win in curling last winter. It would appear that a challenge in any form of sport can be made, and in this instance Ponoka elected to compete in football, horse shoe pitching, golf and trap shooting.

While Barrhead won in football and horse shoes, the Ponoka opposition piled up points in golf and trap shooting. Losing by two points, Barrhead lost the trophy for the time being. The Ponoka members considered the event the best outing so far.

Fort Assiniboine are sending felicitations to Mr. and Mrs. Frank Williams for the success of their son, Floyd Williams, who received his degree of Doctor of Medicine at the convention last week at the University of Alberta. He is the first Fort Assiniboine to realize his life-long ambition to become a "medico."

Searle Grain Elevator Destroyed By Fire

MANOLA—Fire destroyed the Searle grain elevator and annex and 35,000 bushels of grain Friday. Total loss was estimated at about \$75,000. Timely arrival of the Barrhead fire department saved the hamlet of Manola, nine miles east of Barrhead, from total destruction. The fire started from an overheated motor near the top of the elevator. Efforts of the agent to control it with a fire extinguisher were to no avail. Help was solicited from the Barrhead fire department, which responded under Fire Chief Ross Baker.

Although the elevator was doomed, the Alberta Wheat Pool and the U.G.C. elevators and bulk gas station were saved. Flying embers set one store alight and also the platform at the depot.

Miss Hull Speaks To Home and School

CLYDE—At the last Home and School meeting of the season held in the Clyde High School on Wednesday evening, a large group of ladies heard a very interesting talk by Miss E. Hull, primary teacher here. Her topic was "Teaching Your Child To Read." Miss Hull told of the various types of readers and what could be done to improve their reading ability. She outlined the various things to teach children at home before they commence school. She stressed most of all the importance of giving the child experience before he is of school age. These were such things as going to the zoo, riding on street cars and buses, escalators and elevators, going to the airport and so on giving the child a basis for knowledge that will encourage him to want to read when he commences school.

Miss Hull told the mothers that during the last week school her room is open to all who will be beginners of the fall term and that the few days spent there will be a big help to them when school commences. The beginner has an idea of what school is like.

Refreshments were served by Mr. D. MacLachlan.

CLYDE COMING EVENTS:

Don't forget the Farmer's Dance in the Clyde Hall on Friday, June 13, with Ron Kendall's Orchestra in attendance.

The Students' Union is holding their Graduation Banquet and Dance on Friday, June 27th. Square dancing every Saturday night in Clyde Hall in preparation for the competition which will be held in Edmonton on the 30th.

Next Red Cross meeting will be July 8th at 8 p.m., at the home of Mrs. S. Fricker. The work committee would appreciate all work to be handed in by that time.

A half billion dollars is currently being spent to double Canada's production of aluminum.

ALONG THE SKYLINE TRAIL—Along the skyline trails and through the fabled passes of the Canadian Rockies this July, 136 "dude riders," straddling their securely saddled cayuses, will view some of the most spectacular scenery on the continent. The "dudes" are Trail Riders of the Canadian Rockies, an organization founded by J. Murray Gibbon, well-known author and former general publicity agent for the Canadian Pacific Railway, and during the last two weeks in July will participate in five-day and six-day rides in the Egypt Lakes—Marmion Ridge area of the Continental Divide near Banff, Alta., jumping off point for the expeditions. The five-day ride, starting July 18, costs \$65 per person and the six-day jaunt, beginning July 25 costs \$75, which includes horse, saddle equipment, tepee accommodation, meals and guide service. All riders are eligible for membership in the 29-year-old Trail Riders organization.

A Memorable Day

ST. ALBERT—Monday, June 2, will ever be a memorable day in the annals of St. Albert School. On the grounds adjacent to the parish church, was held a sub-local track meet. Competitors and spectators from the four schools in the sub-local, Villeneuve, Glenarry, Vimy and St. Albert, came to join in the fun.

The organization of the meet had been confided to a committee of three teachers: Mr. Raboud, vice-principal, Mrs. Vague, and Mrs. Maloney. So efficiently was the whole affair planned, that not a single flaw appeared in the entire day's proceedings. With the co-operation of all the teachers, a very enjoyable day was assured. Mr. Tremblay, principal, was responsible for the discipline on the grounds. So well did he acquit himself of this duty, that the day went by without registering even a minor accident.

And there was the refreshment booth under the direction of a group of senior high school students. Here were available hot dogs, chocolate bars, soft drinks, poppicles, and revels. Nor was this all, for there was even fresh water to quench the thirst of the parched throats that cokes and seven-ups failed to cool.

The following is the list of events that filled the day: running broad jumping, standing broad jumping, running high jumping, hop, skip and jump, dashes 25 to 100 yards, three-legged races, sack races, ball throws, and a 400-yard race for the older boys.

First-prize winners were awarded a red ribbon and three points; second-prize winners a blue ribbon and two points; and third-prize winners a white ribbon and one point. All points were tabu-

lated with the names of the winners in each class.

As one out of the day, the points were tallied, giving the following results:

Class	Points
Class A Boys—Douglas Ross and Kevin McDonald	6
Class A Girls	
Chloé Brodeur	5
Class B Boys	
Allan Malouin	13
Class B Girls	
André Howland	9
Class C Boys	
Desmond McDonald	12
Class C Girls	
Margaret Maloney	12
Class D Boys	
Grant McKee	17
Class D Girls	
Marjorie Bambush	11
Class E Boys	
Chester Cunningham	23
Class E Girls	
Mary Anne Cassidy	7

A prize of \$1 was awarded to the younger winners and \$1.50 to the older ones.

Mr. Tremblay thanked all the teachers and students who had helped to make the day a success. And a success it was, too, with an ideal temperature, a gentle breeze, and a mild sun.

At 4 o'clock the school vams were on the driveway adjoining grounds, and the happy pupils piled in with the prospect of talking over the events of the day to enjoy them anew. It was assuredly the end of a perfect day!

Calf Club Day

RAY—The calf club of Ray are holding their achievement day on June 10 at 11:00 a.m. on the farm of President Boile. Final show and sale of calves will be held in Edmonton on June 11.

EDITORIALS

Spring Horse Show

Unqualified approval of a job well done must be accorded Mr. C. W. Ross and his executive who so ably put on the 1952 Edmonton Spring Horse Show. At a time when horses for utility and work are fast becoming a thing of the past on our farms, it is nevertheless reassuring to know that lovers of good "horseflesh" are able to put on such an outstanding show.

Grant McEwan, of the University of Manitoba, announced that in at least one class, Saddle Pairs, all entries were so well matched and of such a high standard that it was extremely difficult to make selection of prize winners.

It is unfortunate that more farmers of Northern Alberta did not know of the Spring Horse Show but we understand that this weakness in advance publicity will be corrected next year. Generally speaking, few farmers at this time of year subscribe to a daily paper and few have time to spend long hours listening to the radio. Officials of the Northern Alberta Light Horse Society should try to fill in the gap another year by co-operating with the weekly press, which serves rural Alberta, on advertising and publicity.

New Yacht for the Queen

The British have decided to build the royal family a new yacht. The present royal yacht was built for Queen Victoria, and has lain for years in Portsmouth harbor, condemned as "unseaworthy" by the Admiralty.

The new royal yacht will be a four thousand ton, twenty-one-knot, fifty-five beam craft. It will cost about three million dollars and will be convertible to a hospital ship in time of war.

Britain has always provided its rulers with adequate seagoing transportation but in recent years this tradition has been neglected. King George VI was the first ruling monarch in three centuries who did not own a seagoing yacht. Charles II had twenty-six yachts. Queen Victoria had eight built during her sixty-four year reign. In England a royal yacht is not considered a luxury but a necessity. And since the Duke of Edinburgh served with the Royal Navy in the last war as a Lieutenant, it is altogether fitting that the Royal couple enjoy a royal yacht — at least that is how the British Conservative Government feels about it.

Irrigation Possibilities

Nearly 30 per cent of the earth's land area, or about 9 billion acres, is arid or desert soil. Only about 100 million acres of this, less than 1 per cent, are presently irrigated. An additional 200 million acres can be put "under the ditch."

The above information was given in an address by Dr. Charles E. Kellogg, chief of the United States soil survey division, at the international conference on desert irrigation held in Jerusalem.

Dr. Kellogg pointed out that soil scientists have hitherto been unable to study arid soils located far away from population centres. In his opinion many terms of experts will be needed to make any progress in this new and untouched field. Unless soil irrigation projects are carefully picked, a lot of money and effort will be wasted.

Swine Production Booklet

The federal department of agriculture has just issued a revised edition of the pamphlet "Swine Production," copies of which are obtainable from district agricultural officers, or by writing to the Lacombe experimental station, where the booklet was prepared. Giving up-to-date information on the feeding, care and management of swine, this pamphlet should be read by all hog producers.

The Church and the Gospel

By T. W. PUE

Speeches given at the recent United Church Conference in Lethbridge would indicate that several Church leaders are not satisfied with the work being done by the Church. I wonder if in considering the "work" of the Church, church leaders of today are feeling any real satisfaction with the message being delivered from the pulpits, Sunday by Sunday, in our present day churches.

It is possible for a person to attend church from the day of their christening to the day of their death, and never know the fundamental purpose for the church's existence.

Many of our present day preachers and ministers are like John Wesley, who, born and brought up in the atmosphere of the Church of England of the early eighteenth century, became a renowned preacher of great eloquence, acceptable to any pulpit in London. But that was before John Wesley found that he had the form of Christian faith only and not the substance.

Wesley found, after a missionary trip to America and a meeting-up with a small group of German Moravian Christians that he was not converted, not saved, not born again.

But John Wesley, like the Prodigal son, did indeed come to a knowledge of his soul's lost condition and after years of formal Christianity took on the very substance in a right-about-face conversion and joyfully sprang to the task of preaching his new-found gospel in the old familiar pulpits.

If any argument was required to prove John Wesley was a new man "born again" it is this: that his old church associates, who had heard him preaching the gospel of salvation in their churches, the veteran preacher, but never converted had to go out into the "highways and byways" of England to preach to the unchurched common people of England. And from that began the great Methodist movement that brought in its wake not only the great spiritual changes but also the social revolutions of the 18th and 19th centuries.

NEEDED: A 1952 WESLEY

Travellers from England these days report that the gospel of salvation through the vicarious sufferings of Christ is now being preached in the "flow" Church of England, but not the "high" Wesleyan Methodist and Baptists seem to avoid preaching it today in England as so many of them do here in Canada. It is unusual to hear a Baptist or United Church Minister tell their congregation that they have to accept the Lord Jesus as their personal saviour if they are to gain everlasting life.

It is not difficult, therefore, to understand what happened in the life of Eliza Sherwin, wife of Richard W. Sherwin, Edmonton contractor, who died recently in Philadelphia and was buried in Edmonton.

At the funeral service, the minister recounted how, having lived most of her life in the atmosphere of the Christian church, she, with her husband, found one day they were both lacking in the vital factor spiritual rebirth and how this important event in her life changed her for time and eternity.

She was first baptized in the Church of Christ at Hanna at the age of 14. Along with her husband she experienced a new birth of spirit at the Bethesda Tabernacle in Edmonton in the spring of 1919. This quickening of her inner life brought unhesitant commitment to Christ as her personal Saviour and Lord of Life. From that time she walked more closely with God, had more definite purpose in living, and experienced a deeper joy which was apparent to her friends and loved ones. Thus, as her "outer nature" was wasting, her "inner nature" was being renewed day by day.

Is there a John Wesley in Alberta to sound the clarion call of the Gospel and thus Christ to awaken Albertans, religious and irreligious alike, to find the Saviour as Eliza Sherwin did?

Note and Comment

A farmer in Craig County, Oklahoma, which pays a bounty for every wolf killed, made no attempt — despite frequent opportunities — to kill a wolf that lived on his property and constantly raided local chicken coops. Finally his neighbors demanded to know why.

"Well," he explained, "I got bounties off her nine pups this spring and bounties off her seven last year. Guess I'm just too soft-hearted, thinking of a mother and her young."

Bible Today

While they promise them liberty, they themselves are the servants of corruption; for of whom a man is overcome, of the same is he brought in bondage. — Peter, II, 18.

WHY NOT PAINT A CLEAR PICTURE?

(From the Camrose Chronicle)

There is a group of people who are trying to confuse the rural electrification picture in Alberta. They are undoubtedly sincere in their desire to make the utility a publicly owned affair. They use arguments between Alberta and Manitoba and between Alberta and Saskatchewan to entice the Alberta farmers under their wing.

It is true that Manitoba builds the lines direct to the farm to be served and that there are 77,000 farms already electrified in Manitoba. It is also true that the Manitoba Power Commission owes the Provincial Government the sum of \$15,000,000 with an addition of \$10,000,000 under authorization and not yet expended. This part of the story is never mentioned from the public platform.

And another thing, Manitoba has had a surplus of power since 1910 and has been in the rural electrification picture for twenty years. Likewise, the Saskatchewan Power Commission owes the Saskatchewan Provincial Government \$21,000,000.

This province has made no bones of its inability to construct free rural lines to farm premises. Saskatchewan is not so fortunately situated as either Manitoba or Alberta in the matter of power resources. She has few hydro potentials near to present centres of population. Should Alberta decide to make power a publicly owned utility at the present time, the Province would be required to assume the additional bonded indebtedness of \$100,000,000.

As far as rates go at the present time, Alberta customers enjoy rates as low as Manitoba and lower than Saskatchewan and are not carrying any of the bonded indebtedness as an indirect charge against the utility.

Another interesting feature of the argument is that Manitoba's 27,000 rural installations are confined within a geographical area of less than one-third the area in Alberta from the Edmonton area to the Peace River area, eliminating the Peace River area entirely.

Voice of the People

ONE WAR IS ENOUGH

This was true in 1946, and is more true today.

Technocracy has always realized that war will be popular as long as the Price System exists. War brings Price System prosperity. World War II produced the greatest profits in history. In the release "Sanctified Salvation", August 31, 1944, Continental Headquarters of Technocracy Inc., stated:

"And the Hollywood glamourizing of this price system of ours and the too, too wonderful results of free enterprise in winning everything from the soap derby to the war, our great iron lugs as in the face in the midst of our lush prosperity. Only during a total world war has the Price System of U. S. and Canada, with all its social inefficiencies, and its full employment and prosperity living conditions. This startling fact must be apparent to every American today that only under a world war can our government spend hundreds of billions of dollars, and only if our government can continue to spend hundreds of billions of dollars can we, as a nation, continue to purchase apparent full employment and apparent prosperity. Only during a world war has the Price System of this North America been able to offer the glittering bribery to almost every segment of the national structure, a bribery so attractive that it seduces all citizens into the rapturous acceptance of more of the same, of more wages for the worker, greater salaries for the employed, higher prices for the farmer, more customers for the corporate enterprise, and more and better rackets to create more debtors."

Under the Price System, men live as if it betrays material contentment with or without risk. What many persons apparently do not realize is that, with the advent of the atomic bomb, war has become a dangerous, every region of the world becomes a potential battlefield and every citizen is engaged.

In an article "One War Is Enough" (Atlantic Monthly, February, 1944) a veteran of forty months of war duty blasts the apathetic attitude of today.

"Probably I shall be tagged as a psychoneurotic veteran of too much dishonour when I say that I get alternate fighting mad and peace mad whenever I hear people talk about the next war. I cannot understand how they can be resigned to the prospect of another global conflict, so casual

in their assumption that wars are inevitable, so damnably aware of the consequences of their current complacency.

"Has everyone in this country lost faith in peace? Here we stand on the threshold of what could be a new and better world, and our faithless citizenry insists upon looking backward and muttering that what has always been must be..."

If the people of North America remain in their present state of torpor at the approach of war, our technological birds of yank will surely be consumed.

Today on this continent only Technocracy stands firmly against the drift toward war. All other organizations are part and parcel of the Price System — the system that cannot exist much longer in time of peace.

Operating under the rules of the Price System game, our political and business leaders have been guilty of technological sabotage for many years. And today those who conspire to wage war to perpetuate an outworn system are guilty of technological sabotage. Judgment will be made by the historical march of events, and the blame will lie equally on all who meekly permit our technological heritage to be sold out to Marx and Mammon.

R. S. CAMERON, Edmonton, Alberta.

REPLY TO L. DEKORFF

I see that you have chafed this subject and are now discussing my inability, lack of grammar and such; you also complain of wasting your time, well you are (yours and mine too) because I am not interested in your opinion of me personally.

Since you rate as one of the intelligent residents of our town I am disappointed to see that you do not always act as such. I see it is no use to mention your poems since you are always changing your mind about their meaning.

Now I'll admit your general rule that every poet is a fool!

But you yourself may serve to show.

That every fool is not a poet.

— THE TRAVELLER.

BOQUETT

I enjoy reading your paper very much. I particularly look forward to your special features such as "Bright Sayings of Children." Many of them are very good and you are to be congratulated on providing us with such a good paper. — Mrs. Gloria Miskew, Stony Plain.

THE LIGHTER SIDE

One Way To Do It

Junior was a little terror, the
source of his home and the
neighborhood. So Papa was under-
standably surprised when Mama
suggested they buy him a bicycle.
"Do you think it will improve
his behavior?" inquired Papa.
"No," answered Mama grudgingly
"but it might spread his mean-
ness over a larger area."

A Real Surprise

A famous author was auto-
graphing copies of his new novel
in a large department store. One
gentleman pleased him by bring-
ing not only his new book for sig-
nature, but reprint editions of the

author's two previous works as
well.

"My wife likes your stuff," he
remarked rather apologetically.
"So I thought I'd give her these
signed copies for a birthday
present."

"A surprise, eh?" hazarded the
author.

"I'll say," agreed the customer.
"She's expecting a milk coat."

Country Wit

The city slicker halted his car
at a desolate crossroads and yel-
led to a farmer driving a load of
hay: "Hey, Cornsilk, is this the
way to Chicago?"

The farmer looked up in feigned
astonishment. "By gumm, stranger,
how'd ye know my name was
cornsilk?"

"I guessed it," answered the
slicker.

"Then by heck," snapped the
farmer, "guess your way to Chica-
go!"

Carry On!

One sunny afternoon two silent
lanky mountaineers met on a
wooded trail. One stared at the
other with a puzzled expression
and inquired:

"Look here, David, what do you
mean by shooting at me? I ain't
got no quarrel with you."

"You had a feud with Abe Gor-
don, didn't you?" asked the other.

"Sure, but Abe's dead."

"Well," was the stern reply, "I'm
his executor."

Alberta Lawyers

To Argue Appeal

Five Alberta lawyers will travel
to London some time in June, but
it won't be a pleasure trip.

All will appear before the Privy
Council about June 30 to argue a
legal case of the utmost impor-
tance to Alberta oil men.

The four Calgary lawyers are
H. G. Nolan, Q.C., Harold W.
Riley, Q.C., S. J. Helman, Q.C.,
and D. Rae Fisher. George Steer,
Q.C., of Edmonton, will round
out the group.

The appeal arises from the re-
cent Alberta Supreme Court 1-1
decision that the Canadian Pacific
Railway Co. and Imperial Oil Ltd.
were entitled to use the natural
gas belonging to Michael Borys
in removing their petroleum from
under his 160-acre farm in the
Leduc oilfield.

Since the suit was started be-
fore appeals to the Privy Council
were abolished in Canada, the
Supreme Court of Canada has
been bypassed.

Delivery of
Natural Gas
to this
Community

Pipe for Northwestern's Distribution System

Distribution System pipe of various sizes protected against corrosion, stock piled at the Company's Edmonton operating base, ready for installation throughout the system.

**Natural Gas Is Still Your
Biggest Commodity Bargain**

FROM the Viking-Kinsella field to Edmonton, Northwestern has constructed three pipelines and is progressively building a fourth. These are all inter-connected every ten miles, and not only serve the City of Edmonton but help to safeguard the delivery of adequate supplies to all parts of the Company's system, including this community.

In addition an independent pipeline brings Natural Gas to Edmonton from the Leduc field.

LETTERS TO LOUISA

Dear Louisa—

I am a girl of 14 in the 9th grade and am having some trouble deciding whom I should like.

A is a boy I have known all my life. Of nice people and has always been so good to me. B came along and I started liking him a lot. He is better looking, has lovely manners and is of nice people but doesn't want me to like anyone else.

Should I drop A or B? I would like to like, both but it seems as if I can't.

PUZLED.

ANSWER:

Really, Puzzled, I think it is a mistake for a girl as young as

you to drop all her boy friends but one.

If they break-up later on, it is more difficult for her to take up where she left off than for him.

I know, however, that in many communities this custom of going steady begins at an early age and its only advantage is that the girl always knows she has a date for all important social functions. Why don't you explain to B that A has been a friend of his yours for so long that you just can't drop him but that you will have more dates with B than with A? This may help.

Alex Latta Limited

Adds New Major Line

Effective June 1st, Alex Latta Ltd., 10334 108th Street, Edmonton, has been appointed by Dominion Oxygen Company Limited to handle "Dominion" oxygen and "Prest-O-Lite" dissolved acetylene in large, industrial-size cylinders in the Edmonton area.

This progressive company, operating its own fleet of trucks, assures prompt, efficient delivery of "Dominion" oxygen, "Prest-O-Lite" acetylene, "Union" carbide, "Purox" and "Oxweld" equipment, and supplies, as well as the complete line of electric welding machines, accessories and materials which has been handled by Alex Latta Ltd. for several years.

With this new appointment by Dominion Oxygen Company Limited, Alex Latta Limited now offers one of the most complete welding and cutting equipment supply services in Alberta.

Dominion Oxygen Company Limited, a unit of Union Carbide and Carbon Corporation, is associated in Canada with the Electro Metallurgical Company of Canada, Limited, producers of ferro alloys and metals; National Carbon Limited, manufacturers of Prestone anti-freeze, Eveready flashlights and batteries, National electrodes and other carbon products; and Bakelite Company (Canada) Limited, producers of Bakelite brand plastic.

He Loved Sea But She Didn't

LOS ANGELES—A merchant marine captain who can't stand living ashore and a wife who can't take life at sea make a poor marital combination. Superior Judge Orlando Rhodes agreed.

He awarded a divorce to Mrs. Sophie Proamos Fafalos 39, of Hermosa Beach, when she testified that her years at sea with Fafalos had, in effect, sent her love for him awash.

Married in 1945 to Stavos L. Fafalos, 36, then a first mate on a freighter, she tried living aboard ship for two years as the only woman among 48 men.

Mrs. Fafalos said she couldn't eat the food, had no one to talk to and couldn't stand the changes of climate in 14 different countries they visited.

She finally persuaded her husband to settle down at Hermosa Beach, she said, but after a year as a landlubber he announced he had had enough and wanted to go back to sea.

\$1 for EMBARRASSING MOMENTS

The Editor will pay \$1.00 for every item published on "The Most Embarrassing Moment of My Life." To qualify, items must be true, personal incidents. Address: "Embarrassing Moments," P.O. Box 4365, South Edmonton.

Here is one of my embarrassing moments.

Some of my friends and I attended a dance quite far from home. Everyone was a stranger to us but I thought I recognized one girl but couldn't get to talk to her. While dancing she happened to be near me so I decided to speak to her. In doing this I hit her rather hard on the shoulder and to my surprise, she turns and faces me but an elderly lady I barely whispered "I'm Sorry."

DISAPPOINTED.

Donatville.

\$1 for Favorite RECIPE

MAPLE APPLE UPSIDE DOWN CAKE

- 3 tablespoons butter
- 1/2 cup maple syrup
- 1 med. red apples
- 1 1/2 cups sifted flour
- 2 teaspoons baking powder
- 1/2 teaspoon salt
- 1/2 cup shortening
- 1/2 cup sugar
- 2 eggs separated
- 1/2 cup milk
- 1/2 cup grated apple

Melt butter in sauce pan, add maple syrup and remove from heat. Cut cored, unpeeled apples into 1/2 inch slices and arrange in syrup mixture. Stir flour, baking powder and salt together. Cream shortening with 1/2 cup sugar and unbeaten egg yolks until fluffy. Add sifted dry ingredients and milk alternately in small amounts, beating well after each addition. Add apple. Beat egg white until stiff but not dry, beat in remaining sugar and fold into batter. Spread batter over the apple and syrup mixture and bake in moderate oven (350 degrees) 40 to 50 minutes.

Serve warm with plain or whipped cream. Makes 1 x 8 1/2 inch cake. This week's \$1 cheque for Favorite Recipe went to Miss Rita Fawcett, Groulx, Alta.

South African farming area land values have risen, by more than 300 per cent in the last ten years.

FUA ANNOUNCES DATES FOR CONVENTIONS AND RALLIES

EDMONTON — Announcement has been made here by officials of the Farmers' Union of Alberta of dates and places of district and sub-district conventions and rallies to be held this spring and summer.

Conventions include the following:

ing: Dis. No. 3, Athabasca, July 5; Dis. No. 4, St. Paul July 3; Dis. No. 5, Onaway, June 25; Dis. No. 6, Lamont, July 26; Dis. No. 7, Wainwright, July 4; Dis. No. 8, Viking, July 10.

District officials looking after registration of delegates to conventions will be provided with an up-to-date record of membership in each local and only locals in good standing will be permitted to send delegates. A local in good standing is defined as one with not less than six paid-up members for 1952. One delegate is allowed for each 10 members or major portion thereof. For example, a local with 26 members may send three delegates. Delegates will be provided with a ribbon when they register which will enable them to take part in voting.

Victors will be welcome at all district conventions. The president will attend all conventions, and our FUA president will attend some. Reports will be given by district officials. Election of officers for next year will take place and important matters will be discussed.

All locals are urged to send their full quota of delegates and are asked to extend an invitation to visitors. Delegates will be expected to get up and speak to express the opinion of members in their respective locals, and should also take back a full report to their locals.

Sub-district rallies to be held include the following:

District 4—Sub-dist. 4, June 16, at Gendron; Sub-dist. 7, June 19, Parish hall, at St. Paul; Sub-dist. 1, June 29, at Sprucefield hall; Sub-dist. 2, June 21, at Edwards; Sub-dist. 5, June 23, Legion hall, at Ashmont. All rallies begin at 1 p.m. in District 4.

District 5—Sub-dist. 4, Drayton Valley, June 9 at 8 p.m.; Sub-dist. 2, May 16, June 11 at 1 p.m.; Sub-dist. 3, Styl, June 14 at 8 p.m.; Sub-dist. 1, Stony Plain, June 16 at 8 p.m.; Sub-dist. 3, Cheryl, June 17 at 8 p.m. All District 5 rallies will be attended by Mark Saffin, Morinville, and Mrs. Olive Harrold, St. Albert.

FUA and FWUA directors. District 4—Sub-dist. 1, Monday, June 16, at Gibbons; Sub-dist. 2, Tuesday, June 17, at Ardrossan; Sub-dist. 3, Wednesday, June 18, at Padua; Sub-dist. 4, Thursday, June 19, at Vegreville; Sub-dist. 5, Friday, June 20, at Andrew. All District 4 rallies will begin at 10 a.m.

Alberta Priest Said 'U.S. Spy'

HONG KONG—Eleven Catholic missionaries, including a Canadian, arrived here as the latest victims in the Communist attempt to purge China of western influence.

The priests were put aboard a Hong Kong-bound boat by the

Communists at Tientsin. They had last year and held in a local prison been under arrest for periods of six months. Before his jailing ranging from several months to the Communists had confined him years at missions in northern to his mission for two years.

Launzon said that two months ago he was handcuffed, had a rope tied around his neck and bundled off to the Tientsin provincial capital of accused of being an "American Shanghai Province 200 miles away for questioning."

He was arrested at his mission. He was then brought back under at Fenghsien, near Shichow in guard to his mission and delivered northern Kinangun Province, Sept. 4 to leave China.

TALENT WANTED!

We are searching for NATURAL TALENT. If you can sing or play an instrument enter the HARMONY HOUSE TALENT CONTEST. You may win one of several valuable PRIZES including return fare to Banff and a scholarship in the Banff School of Fine Arts. Contest opens Monday, May 19th and closes Saturday, June 14th. Contestants will be recorded at any time without appointment. Impartial judges will determine winners from recordings. Musical selections must not be longer than three minutes. Contestants will be required to provide their own accompaniment (studio piano available) and pay a recording fee of one dollar. For full information, phone or call at HARMONY HOUSE LTD., Recording Centre, 10818-88 Ave. (South End High Level), Phone 291010.

meeting was held in the school recently. The election of officers for the coming year took place, with Mrs. O. B. Smith as president, Mrs. Hunter remaining as secretary. Any parents interested in the opening of the Home Ec. and Shop rooms at Westlock are cordially welcome to attend at 2 p.m., June 11.

The annual school festival was held in the hall. The pupils' work and hobbies were on display in the school. Mr. L. Maynard was invited by Mr. Kunelius to make the presentation to a pupil of the Picardville School for the best essay on "Prevention of Accidents."

Fires may be distinguished from other Canadian confers by the fact their cones never hang down but stand erect on the branches.

Scholarship Plan Offered By Hotelmen

The largest and broadest scholarship plan ever offered to Albertans was outlined Tuesday by A. G. Swinerton of Fort Macleod, Alberta Hotel Association president. Designed to assist several students annually, the program is sponsored by the licensed hotelmen of the province, through the association. Mr. Swinerton revealed details of the plan during his presidential address at the AHA 32nd annual convention at Edmonton.

Mr. Swinerton said that \$15,000 would be available for scholarships this year. He added that the amount to be spent annually in future years would be double the amount spent on this year's financial scholarship.

"The die has now been cast"

An American manufacturer was planning to open a plant in Canada. He considered various locations and found what seemed a likely one. He talked to a local bank manager, got facts about the community and its facilities.

Some time later the company wrote to the banker:

"The die has now been cast. It is our intention to locate in S. . . We feel that it is well suited to our particular operation. You have been of great aid to us. Your accurate and rapid presentation of facts necessary to reach a decision was top-notch."

Such letters show how a branch bank serves not only its own depositors and other customers but how, by assisting business development, it benefits the whole community.

This advertisement, based on an actual letter, is presented here by

THE BANKS SERVING YOUR COMMUNITY

Financial assistance to worthy students who otherwise would be deprived of their annual advanced education is provided by the program. A feature of the Alberta Hotel Association's Scholarship Plan is the fact that it will not be confined to university courses. For example, scholarships may be granted to those pursuing the

fields of agriculture, oil, forestry, mechanics, dress-making, nursing, teaching and other vocations.

The first AHA Scholarships will be awarded following release of Grade XII departmental examinations. This year all scholarships will be tenable at the University of Alberta but this will not be the policy for future years.

AGRICULTURAL SERVICE BOARD

Municipal District of Morinville No. 91

Municipal Office,
Morinville, Alta.,
May 17, 1952.

To All Ratepayers of Morinville M.D.:

DEAR SIRS:

RE: Bang's Disease (Contagious Abortion)

WHAT IT IS AND HOW IT IS SPREAD—

This disease of cattle is present in probably half the cattle herd in your Municipality. It causes great losses, as infected cows abort at 5 to 8 months. It is a germ disease and spreads from one cow to another.

CURE OR PREVENTION—

There is no cure as a cow infected with Bang's disease carries abortion germs the rest of her life. PREVENTION can be obtained only by vaccinating heifer calves at 4 to 9 MONTHS OF AGE.

They are immune for several years and by vaccinating heifer calves at 5 to 9 months gives best resistance a disease free herd can be built up within 5 to 6 years. In other words once started it must be continued.

UNDULANT FEVER IN MAN—

This dread disease of humans has occurred in the Edmonton district. It was traced back to drinking milk from cows infected with Bang's disease or handling infected animals.

CONTROL OF VACCINE—

Vaccine is supplied free by the Alberta Department of Agriculture. It is only allowed to be used by veterinarians.

Buyers are looking for cattle from Bang's free herds and also those vaccinated as calves.

For further particulars get a circular on "Bang's Disease" from the Municipal Office or from your District Agriculturist.

MUNICIPAL VACCINATION POLICY

The Morinville Agricultural Service Board has made arrangements with veterinarians to do calf vaccination on an hourly basis. The charges per calf will be \$1.00 with a minimum charge of \$2.00 per calf.

This is a plan whereby Bang's free herds can be built up, if vaccination is done twice a year.

Through organization and co-operation this service, as outlined above can be rendered more cheaply than if done on an individual basis.

JOHN SCHAFERS,
Chairman.

WALTER ELLETT,
Field Supervisor.

(Tear off here and leave at or forward to Municipal Office before June 10th 1952)

I have _____ heifer calves between the age of 4 and 9 months for Bang's Disease Vaccination. I agree to pay \$1.00 each at the time vaccination is done
